

MAXDATA PRO 6100 IW

The multimedia notebook for business users

The MAXDATA PRO 6100 IW notebook promises top performance for business. The basis for the excellent performance is Centrino® Duo mobile technology from Intel®, which allows you to work at lightening speed with several applications on your notebook at the same time thanks to the first Intel® dual core processor designed for notebooks.

The MAXDATA PRO 6100 IW also achieves optimal results when it comes to graphics. The excellent display quality for complex graphics applications is based on the combination of the NVIDIA® GeForce Go 7400 graphics card with 128 MB of memory and up to 256 MB Turbo Cache™ with a 15.4 inch WXGA screen. The successful symbiosis between the latest chipset technology and a variety of excellent multimedia features is the guarantee for fast and effective work. The port replicator connection provides additional flexibility that permits peripherals to be connected easily at home or in the office with just one "click".

Key Features:

- Latest Intel® Centrino® Duo Mobile technology
- 15.4 inch WXGA screen
- NVIDIA® GeForce Go 7400 graphics card with 128 MB memory and up to 256 MB Turbo Cache™
- Improved connectivity owing to GBit LAN, new WLAN technology and Bluetooth
- Battery life up to 4 hours

Application areas:

- Simultaneous work with several applications
- Excellent multimedia features
- Business users with high demands with regards to graphics and performance

Not all Windows Vista™ features are available for use on all Windows Vista Capable PCs. All Windows Vista Capable PCs will run the core experiences of Windows Vista, such as innovations in organizing and finding information, security, and reliability. Some features available in premium editions of Windows Vista - like the new Windows® Aero™ user interface - require advanced or additional hardware. Check www.windowsvista.com/getready for details.
